

# Heliconia Bihai cv "Claw II"

## Product Description Language

### Openness

### General Description

**Claw sizes:**  
**Leaf stalks:**  
**First bract:**

Ideal size 3 or 4 bracts.  
Cut higher than flower head for protection.  
If first bract has leaf extension trim to retain symmetry of whole flower head.

**Colour:**  
**Leaf attachment:**  
**Total Length:**  
**Defects:**

Bright even colouring throughout flower head.  
No leaf attachment.  
750mm – 1400mm.  
Rub and scratch marks. Dead day-flowers not cleaned out from bracts and misshapened flowers.

**Appearance:**  
**Harvesting:**  
**Storage:**

One side of flower head must be blemish free.  
Optimum time before 10am.  
Undercover, in clean water protected from the wind. Held at 18-22° no longer than 24 hours at high humidity levels to preserve plant turgidity before dispatch.
