---------------------------------------	---

The Tourism, Services and Hospitality division is responsible for promoting the Territory as a must-do, unique holiday and study destination.

The division also works to strengthen the workforce by delivering industry development for the tourism, hospitality and screen sectors.

The division is also responsible for delivering appropriate licensing regulation.

The Agriculture, Fisheries and Biosecurity division supports the growth, development and protection of the Territory's primary industries including agriculture, fisheries and forestry.

This division plays a critical role in the research, development and extension services to industry and the regulation of animal welfare, biosecurity, market access and traceability systems supporting trade, health, food safety, economy and the environment.

The Mining and Energy division facilitates the sustainable development of Territory resources and renewable energy initiatives.

The division delivers the Territory Government's commitment to reduce energy costs, improve energy reliability and reduce emissions from power generation.

The division plays a crucial role in developing and delivering the Northern Territory's energy policy and regulation requirements.

The Strategy and Policy division delivers whole-of-government economic development policies, strategies and projects.

The key focus of the Strategy and Policy division is to inform and influence government decision-making and implement strategies to drive economic reform, industry development, strategic trade and investment.

The division works collaboratively with other Territory Government's departments to ensure consistency.

The Business and Workforce division facilitates the growth of a skilled, agile and capable workforce to meet the economic needs of the Territory.

The division supports Territory Business capability and growth through a suite of targeted grants, products, licences and advisory services.

The division has a whole of government lead for procurement policy and innovation.

The governance and finance division is responsible for the delivery of financial support and reporting to ensure responsible financial management practices, policy development and implementation, corporate services, information management, risk and audit, emergency management, work health and safety, corporate planning and performance reporting services, which supports the Department to achieve its objectives and capacity to serve government.
